Notes

1) Residence in Denmark for 9/10 of the years from the age of 15 until the age the pension is payable is required to obtain full disability pension. If this requirement is not met the pension will be determined by the ratio between the period of residence and the period required to obtain a full disability pension. If the period of residence is less than 1 year no pension is payable.

2) For married or cohabiting pensioners.

3) Pension is gradually reduced at an income exceeding a certain level (DKK 74 300 per year for single pensioners living alone, DKK 117 700 per year for married or cohabiting pensioners).

4) Amount are in effect tax free.

5) Pension is gradually reduced at an income exceeding a DKK 94 800 per year.

6) Maximum EUR 885,63 per month.

7) Up to ISK 386 663 for pensioners living alone in a flat.

Maximum payments to disability pensioners vary according to how old they were when they were first assessed as disabled. The highest payments are made to those who were first assessed as disabled 24 years of age or younger, while the lowest payments are to those who were first assessed as disabled 61-66 years old.

8) Up to ISK 314 629 for those who live with others.

Maximum payments to disability pensioners vary according to how old they were when they were first assessed as disabled. The highest payments are made to those who were first assessed as disabled 24 years of age or younger, while the lowest payments are to those who were first assessed as disabled 61-66 years old.

9) As a rule 50%. For individuals in receipt of work assessment allowance when an application for disability pension is submitted, 40% incapacity is sufficient. If the incapacity is due to an acknowledged industrial illness or accident, 30% incapacity is sufficient.

10) The term basic amount refers to the Norwegian term of “Grunnbeløb”.

11) Income limit set according to degree of loss of income. Limit is set to zero for 100% incapacity. Maximum 40% of the basic amount per year.

12) The guaranteed level of the sickness and activity benefit is based on, among other things, the frequency of the recipient’s visits to Sweden. A lower amount may therefore be payable to those who have been absent for some time.

13) Income related sickness and activity benefit.

14) People awarded pensions according to the rules in place before 1 July 2008 can make use of a “variable settlement”. It is also possible to apply for a subsidised residential stay to facilitate work.
